# WHY?

For Peace of Mind...

**It only makes sense.**

Next to your home, your vehicle is probably the biggest investment you'll ever make.

## PROTECT YOUR INVESTMENT!

Things YOU need to consider in selecting the plan that suits your needs best...

1. How long do you plan on keeping your vehicle?  Years.
2. How many miles do you drive per year?  Miles.
3. The type of parts coverage you need?

## COMPARE RISING REPAIR COSTS

	1990	1996	2006	2009
<b>Engine Overhaul/Replacement</b>	\$1,000+	\$2,000+	\$2,500+	?
<b>Transmission Overhaul/Replacement</b>	\$ 750+	\$1,200+	\$1,500+	?
<b>Power Steering Rack</b>	\$ 250	\$ 400	\$ 550	?
<b>Brake Calipers</b>	\$ 145	\$ 220	\$ 310	?

These prices indicate approximate repair costs. They are not intended to be used as an actual list for services performed.

## USED VEHICLE PLANS

The major differences between a New Vehicle and a Good Used One is the **Service Protection Plan.**

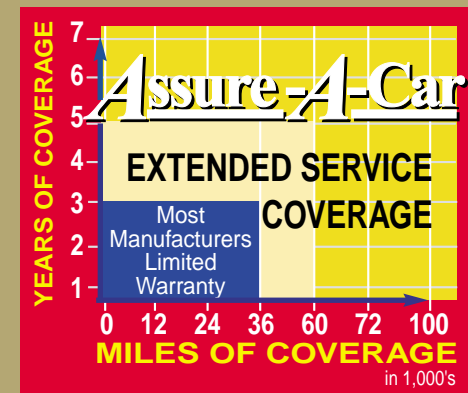

- 3, 6 & 7 Month Plans
- 12, 24 & 36 Month Plans
- Great for Commuters!
- 12 Months/Unlimited Miles!
- 18 Months/Unlimited Miles!
- 24 Months/Unlimited Miles!
- 48 Months/48,000 Miles

SELECT A PLAN THAT SUITS YOUR NEEDS BEST.

## NEW VEHICLE PLANS

For coverage beyond the Manufacturers Warranty.

- Add, UP to 4 EXTRA YEARS
- Add, UP to 64,000 MORE Miles.

## THE ONE OPTION YOU SHOULD NOT BE WITHOUT

Today, many people protect themselves and their properties/purchases through a variety of protection plans for sudden and accidental circumstances.

**WHY NOT FURTHER, PROTECT YOURSELF AND YOUR INVESTMENT WITH A MECHANICAL BREAKDOWN SERVICE AGREEMENT.**
